

Dear Store Manager,

I would like to see your store carry the The Real Patty Co. line of Jamaican Patties.

The Real Patty Co is a local company that was created out of the global pandemic. Their Jamaican patties are delicious and unique and made with only real ingredients. They are hand-held meat (or veggie) pies with rich Caribbean flavours and are a popular easy meal solution for busy families.

Each flavour is made in a small batch with much care and attention, ensuring that each patty is made to perfection. The high quality ingredients and artisanal craftsmanship are tasted in every delicious bite!
